

Table S27. Logistic regression on ideology — Peer-review system and scholarly publishing.

	Current peer-review system is broken (n = 696)		Profit margin for publishers is too high (n = 810)		Journals where I publish add credibility to my research (n = 1043)		Journals are necessary for scholarly communication (n = 1076)		Publishers are necessary for scholarly communication (n = 895)
